DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

> A person shall be entitled to a patent unless –
>
> (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 6 is rejected under 35 U.S.C. 102(e) as being anticipated by Delgado Puche, US 2003/0167681.

The Puche reference discloses the claimed vegetable oil fuel comprising a combustible molecule, such as the claimed acetals (see claim 1 for example).

The invention defined in a product-by-process claim is a product, not a process. In re Bridgeford, 149 U.S.P.Q. 55 C.C.P.A. (1966). It is the patentability of the product claimed and NOT of the recited process steps which must be established. In re Brown, 173 U.S.P.Q. 685 C.C.P.A. (1972); In re Wertheim, 191 U.S.P.Q. 90 C.C.P.A. (1976).

Therefore, since the Puche publication teaches the claimed composition, the claim is rejected.

Allowable Subject Matter

Claims 1, 3-5 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: none of the prior art of record fairly discloses or renders obvious the claimed method comprising the transesterifcation step, followed by the ozone treatment and finally the electrochemical reduction claimed, where the reduction completes the cracking to form the fuel having a low viscosity.
